

The baby boomers.

They call us 'seniors' or 'old folk'.
We were born in the '40s and '50s.
We grew up in the '60s and '70s.
We are now in our own 70s and 80s.
And we're still hanging out in the 2020s!

We have lived through EIGHT different decades,
TWO different centuries...
TWO different millennia...

We have seen more changes than any other generation in history.
We have also been the luckiest generation in history.
It's been a wonderful journey and I've written all about it in my new book which you can find by clicking here - [BOOMER](#).

But if you prefer an **AUDIO BOOK**, good news!

Dr. Jack Wynters, an experienced actor with 80 audiobooks to his name is currently recording all 400 pages of Boomer. He anticipates finishing in late November – certainly in time to place a copy under the Christmas tree.

Sharing a similar background with mutual memories, including buckets of horse droppings, Patrick the writer and Jack the reader have together embarked on a project to bring life and meaning to the past eight decades.
